

We simplify
the complex.

incora.com

A man and a woman, both wearing orange safety vests with reflective white stripes, are working in a warehouse. The woman is on the left, looking down at a handheld device. The man is on the right, also looking down at a handheld device. The background shows warehouse shelving. The word 'incora' is printed on the man's vest. The overall image has a teal wavy line pattern overlaid.

incora™

Incora™ is a global partner to leading multi-sector manufacturers, delivering unparalleled chemical and hardware solutions through supply chain excellence.

With a strong foundation in the aerospace and defense markets, we utilize our expertise to also serve industrial manufacturing, marine, pharmaceuticals, and more.

At Incora, we embed ourselves within our customers' operations, managing every aspect of their supply chain – from procurement and warehouse management to logistics, planning & forecasting, and on-site services.

As your end-to-end supplier, we simplify the complex, providing seamless, efficient solutions tailored to your business needs.

60+

Locations

644k+

Active SKUs

8,400+

Customers

7,000+

Suppliers

We are the end-to-end supplier.

We exceed the needs of our customers, drawing on our team's wealth of expertise, cutting-edge systems and tools.

Commercial Aerospace

Defense & Space

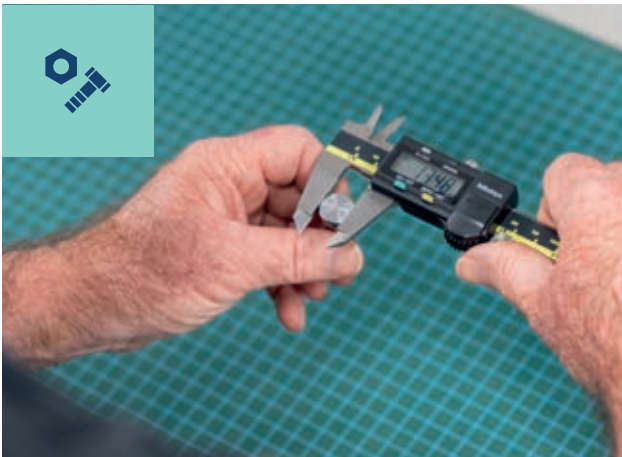

Aerospace Aftermarket

Industrial & Automotive

Incora™ delivers products and services that enhance your value chain and drive bottom-line improvements.

Hardware

A broad inventory of B and C class aerospace hardware for some of the most critical components deployed across aircraft.

- Fasteners
- Bearings
- Seals and clamps
- Bolts
- Collars
- Hydraulic fittings

Chemicals

A wide range of ready-to-ship consumables for a variety of industries, distributed from regulatory compliant & temperature-controlled warehouses.

- Adhesives, tapes and sealants
- Composite materials
- Solvents
- Oils, greases and lubricants
- Paints and coatings
- Metal-working fluids

Electronics

We offer a comprehensive selection of high-performance aerospace electronic products and components, designed for reliability and precision.

- Connectors
- Backshells
- Circuit breakers
- Switches
- Blocks and splices

Machined & Fabricated Parts

We provide build-to-print parts with quality assurance, backed by closed-loop management of Model-Based Definition (MBD) programs for optimal precision and performance.

Tooling

Our tooling centers provide comprehensive tool access and management through the entire life cycle of your tools.

- Tool-to-fastener
- Maintenance and repair service
- Stocking support
- Fastener installation tools
- Swaging tools
- Cold working tools

Other Products

We have established distribution networks for a variety of metals raw materials and composite manufacture materials.

- Alloys
- Welding products and materials
- Brazing and soldering materials
- Composite structural materials
- Composite process materials
- Locking Wire

At Incora™, we enable our customers to achieve supply chain visibility and resilience with our comprehensive solutions and advanced tooling services.

Chemical Management Services

Gain real-time visibility and management of your chemicals throughout their entire life cycle.

Chemical Data Management

Our proprietary software simplifies chemical data management, ensuring regulatory compliance with ease.

Composite Management Services

Minimize material waste, shorten processing times, and reduce labor costs in component manufacturing.

Forecasting Services

Leverage data-driven insights to optimize inventory management and reduce costs.

3PL & 4PL Services

A single point of contact for comprehensive supply chain management, from procurement to delivery.

Just-In-Time (JIT)

Management data-driven systems that streamline operations and prevent stock shortages.

Kitting Services

Custom kitting solutions designed to save time, reduce inventory, and improve efficiency.

Vendor-Managed Inventory

Automated replenishment to optimize your inventory and reduce warehousing footprint.

Vending Services

Optimize your shop floor inventory usage, minimizing stockouts and reducing excess inventory.

**Incora™ partners with
over 7,000 suppliers,
including most major
manufacturers in the
aerospace industry.**

**For us, suppliers are more
than just vendors – they are
our long-term partners, vital
to providing unparalleled
product access and reliability
for our customers.**

Because Incora does not manufacture products,
we are brand-neutral in recommending the best
products to meet the needs of our customers.

**Customers worldwide
can leverage the
potential of the local
Indian aerospace market
with the help of Incora's
global presence.**

Here are the key benefits:

- Extensive knowledge of OEM drawings and specifications across a broad range of manufacturers.
- Custom-fit suppliers, assessed and approved to meet unique customer requirements.
- Transparent leveraging of capabilities and capacities to maximize efficiency.
- Minimal investment and streamlined inventory management.
- A strong commitment from Incora to quality and on-time delivery.
- On-the-ground product development support, in collaboration with the customer.

A group of professionals are seated around a long wooden table in a meeting room. In the foreground, a woman with long dark hair and glasses, wearing a black jacket with small floral patterns, is smiling and looking towards the right. She is wearing a gold watch on her left wrist. Several other people are seated around the table, some looking at laptops and others looking towards the camera. The room has a light-colored wall and a white ceiling. The overall atmosphere is professional and collaborative.

**Supporting India's
Aerospace Growth.**

At Incora™, we proudly support the “Make In India” initiative as part of India’s renewed focus on manufacturing, with an expanded local supplier base that promotes local production capabilities.

In addition, we operate a purpose-built, temperature-controlled 17,000 ft² warehouse at KIADB Bangalore Airport, ensuring seamless service and optimized support for our Indian customers.

**We simplify
the complex.**
